

Become an Indiana Energy Independence Fund Residential Contractor or Installer

Expand your business and help Hoosiers save money and create more comfortable and energy efficient homes

Who we are

The Indiana Energy Independence Fund is a nonprofit green bank offering a range of financial products and services that allow Hoosiers to take control of their energy costs and move toward energy independence. We're dedicated to improving the health and wellness of all Hoosiers, especially those in underserved communities, by driving Indiana's investment in the clean energy transition.

Why you should work with us

We've partnered with Inclusive Prosperity Capital to offer their Smart E-Loan Program, providing contractors and installers in Indiana with a powerful tool to help homeowners make affordable and energy efficient/renewable upgrades to their homes. With financing available for over 40 home upgrades, including insulation, windows, HVAC, solar, battery storage, and more, you can offer your customers a wide range of options to enhance their homes.

How Smart-E Loan financing enhances your business

- Receive predictable, direct milestone payments after loan closing and project completion
- Coordinate with Smart-E and local lender staff through an easy-to-use online portal to follow your project every step of the way and know when funds have been disbursed
- Low cost to participate
- Fast turnaround times for approvals and loan funding
- Call us directly if you need help on a project
- Use Smart-E to increase the scope and size of your projects
- Focus on your installation—let the lenders focus on the financing

What does Smart E-Loan financing look like?

Available to homeowners with FICO scores as low as 580+

Loan amounts range from \$500 up to \$50,000, with terms up to 20 years

Low-interest financing with flexible terms and debt-to-income ratios up to 50 percent

100 percent financing available, including project deposit funds

Low- to moderate-income and credit-challenged homeowners are eligible to apply
